

TPG Telecom offers free mobile calls to customers connecting with loved ones in Iran and Pakistan

14 October 2022 – Vodafone, TPG, iiNet, Internode, Lebara, Westnet and Kogan are offering free mobile phone calls to Iran and Pakistan to help reconnect families and loved ones during these challenging times.

The free mobile voice calls will apply to TPG Telecom customers across Vodafone, TPG, iiNet, Internode, Lebara, Westnet and Kogan. The free calls will commence on 14 October 2022 and run for seven days until Friday 21 October, 2022.

“We want to do our part to help reconnect our customers with their family and friends in Iran and Pakistan and hope this small gesture helps them do that,” said Arthur Panos, TPG Telecom General Manager Product and Devices.

“When natural disasters and social upheaval keep families and loved ones apart, sometimes a simple phone call can make all the difference.”

Most communications in and out of Pakistan remain intact, however infrastructure damage caused by the recent floods could impact call quality and service. If customers experience any issues connecting to Pakistan or Iran, they may need to retry calling to successfully connect.
