

TPG Telecom Fast Fibre offers improved connectivity for regional businesses

5 November 2021 – An additional 26 regional towns and centres across Australia are now able to access TPG Telecom’s Fast Fibre broadband product as they reopen following Covid restrictions and get ready for 2022.

TPG Telecom’s Fast Fibre enables flexible connectivity for business and enterprise customers, with groundbreaking performance, value and unlimited internet on TPG Telecom’s own business-grade fibre network, backed up by 24/7 support.

TPG Telecom Head of Product – Enterprise & Government, Tom Sykes, said TPG’s Telecom’s Fast Fibre product is a high performance, cost effective solution for business and enterprise customers in these regional centres who depend on seamless connectivity to grow their businesses.

“This regional fibre footprint is in addition to our metropolitan footprint and demonstrates TPG Telecom’s continued investment in regional areas – expanding our fibre network and enabling improved connectivity and outcomes for regional businesses,” Mr Sykes said.

“We continue to invest in our fibre network, particularly in regional areas, allowing us to deliver an amazing customer experience, supported by our self-serve digital capability which lets customers manage their service in real-time.

“This is part of our program to help businesses recover from COVID as restrictions ease, by helping to deliver the flexible network experiences that they have been asking for.”

TPG Telecom has three Fast Fibre products available, all of which include symmetric upload/download speeds and can be tailored to specific business needs with the option to split the bandwidth across other TPG products such as data, voice or cloud connectivity.

- TPG **Fibre250** from **\$349 per month** + \$34.90 GST over 36 months (total min cost \$13,820).
- TPG **Fibre400** from **\$399 per month** + \$39.90 GST over 36 months (total min cost \$17,999.40).
- TPG **Fibre1000** from **\$799 per month** + \$79.90 GST over 36 months (total min cost \$33,435).

For a limited time, enterprise customers can get **\$0 install** and **3 months free** when connecting to a new TPG Fibre400 or TPG Fibre1000 service. T&C apply. Installation times depend on site/building access.

For more information and to check availability on TPG Fibre250, Fibre400 or Fibre1000 products, get in touch with us on 13 42 02 or visit tpg.com.au/business-products/internet.
